and configurable via Bluetooth.

## Smart Shunt

300A Battery monitor providing  
detailed usage insights via  
the **VictronConnect** app

## Pre-wired Battery Box

## Warning

To maximise the longevity and safety of your new Exotronic Pre-Wired Battery Box, please ensure you stay within the specified parameters and connect to the appropriate terminals referring to the wiring diagram. Failure to do so could result in shortened lifespan and void your warranty.

**Risk of fire/explosion** – do not short circuit the equipment or exceed voltages. Always check polarity before powering equipment on. Do not expose to the weather or allow water ingress. Keep out of excess dust and do not exceed temperature ratings. Always select appropriate fuse sizes and ensure suitably tight connections.
